

15 May 1970

Mr. Thomas Karamessinas

**Draft NSDM on Psychological Warfare
Operations**

1. Per our brief conversation at the 15 May Executive Committee meeting, attached is the draft NSDM on psychological warfare operations against the Vietnamese Communists. This NSDM and the committee it charts is an outgrowth of our previous work on developing a common set of guidelines to improve the efficiency of the total U. S. psychological war effort.

2. So long as it is clearly understood that neither this Agency nor the DOD ^{is} obligated to divulge the operational details of its covert or black activities to USIA, I think this NSDM will be alright. I am attending the preliminary meeting of the committee this afternoon (15 May) at 1415. If you would like to have or anyone else come along and sit in, this would of course be fine. If you or any other recipients of this note have major problems, could you please call me prior to 1330.
